MARUGOTO Japanese Language and Culture

‘MARUGOTO’ encompasses both language and culture, features real-life communication, and allows you to experience the lifestyle and culture behind this communication.

Using Japanese to actually communicate is the goal. Can-dos are set as objectives that show what you will be able to do in what situations, and you study Japanese that can be used in real-life situations.

Incorporates learning processes that are based on the results of a variety of studies on second language acquisition.

E-learning is also supported, so that study in class can be linked to study outside class. On the website you can self-study by using MARUGOTO + and more.
